

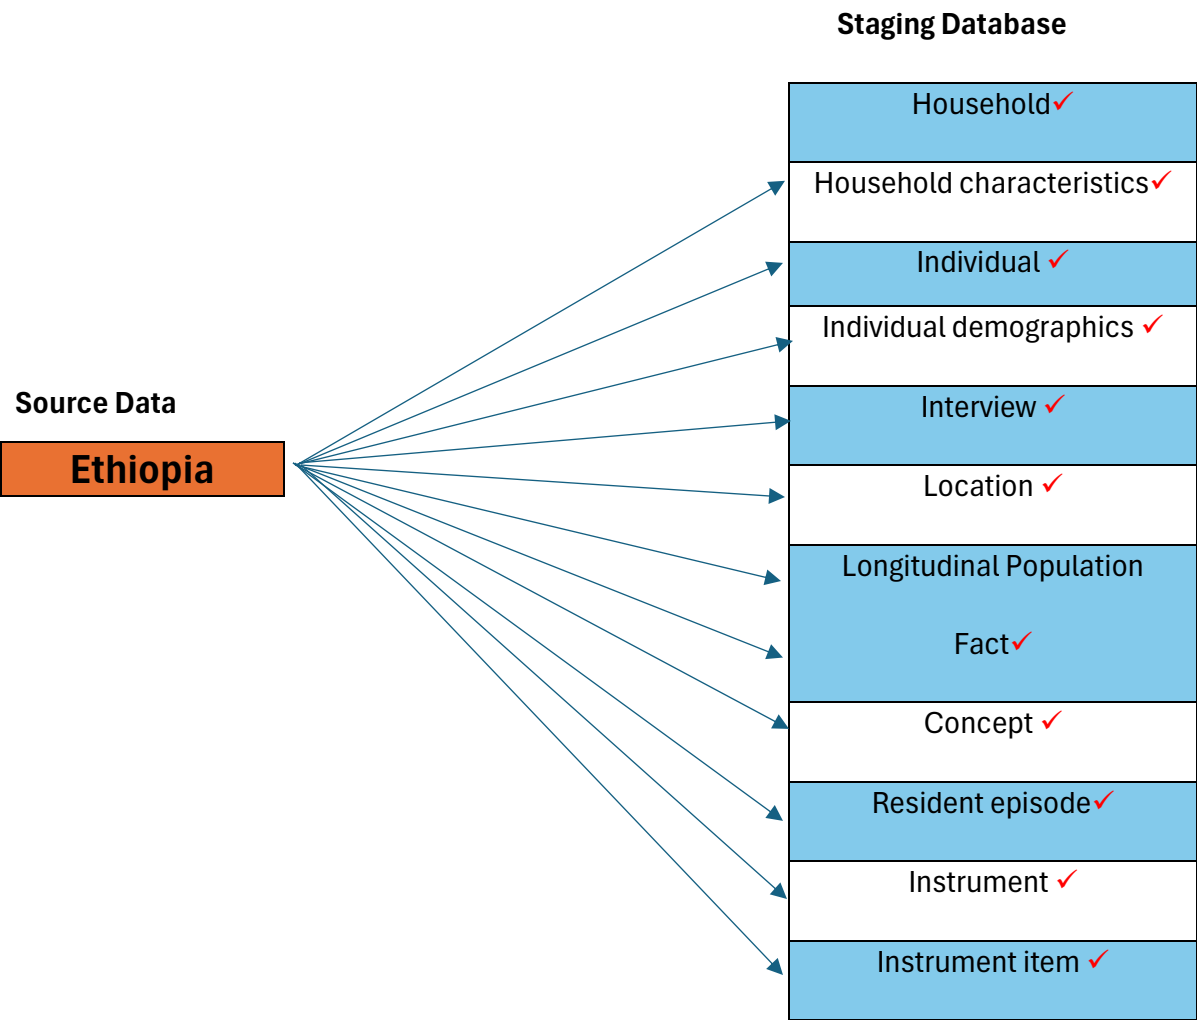

MAPPING FROM SOURCE DATA TO STAGING DATABASE

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

### Individual table

Destination Field	Source Field	Logic	Comment
individual_id			Autogenerated, continue from last individual ID
individual_id_value	id_gen		Actual ID from dataset
household_id			Autogenerated, continue from last household ID
gender_concept_id	gender		All females indicate 8532
first_wave_id			indicate 1
age_at_first_wave	dob		Subtract DOB from Date of First wave
year_of_birth	dob		Extract from DOB
is_household_head			Indicate false, since unknown

### Individual demographics table

Destination Field	Source Field	Logic	Comment
individual_demographics_id			Autogenerated, continue from last individual ID
individual_id			FK from individual table
individual_concept_id	Marital Status Gravid Parity BMI Mode of delivery Fetal outcome Race		Indicate concept id for individual characteristics
individual_concept_id_text	Marital Status Gravid Parity BMI Mode of delivery Fetal outcome Race		Indicate verbatim values for the concept id's

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

### Household table

Destination Field	Source Field	Logic	Comment
household_id	Auto generated		Continue generating from last household id
household_id_value			Indicate as 0 since not present in dataset
location_id	residence		Indicate 7568 for Rural and 7569 for urban
household_head_id			Indicate as 0 since not present in dataset

### Household Characteristics

Destination Field	Source Field	Logic	Comment
household_characteristics_id			Autogenerated from last id
household_id			FK from household table
wave_id			FK from wave table
household_characteristics_concept_id	famsize		Indicate concept id's as follows: 3000000212- Household Size of One 3000000213 - Household Size of Two to Four  3000000214- Household Size of Five to Nine

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

			3000000215- Household Size of Ten to Fourteen
			3000000216- Household Size of Fifteen or More
household_characteristics_concept_text	famsize		Indicate text value of the household characteristics, i.e household size

## Interview table

Destination Field	Source Field	Logic	Comment
interview_id			Autogenerated
individual_id			FK from individual table
interview_date			For time 1, indicate: "2020-11-12." For time 2, indicate: "2020-12-24." For time 3, indicate: "2021-02-04"
wave_id			FK from wave table
instrument_id			FK from instrument table

## Location table

Destination Field	Source Field	Logic	Comment
location_id			Autogenerated, continue from last location id
village_name			Indicate "South Gondar Zone"
place_kind	residence		Rural or Urban
latitude			Latitude of South Gondar Zone in Northwest Ethiopia (11.7746)
longitude			Longitude of South Gondar Zone in Northwest Ethiopia (38.1477 )

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

### Resident episode

Destination Field	Source Field	Logic	Comment
resident_episode_id			Autogenerated from last "ID"
location_id			FK from location table
household_id			FK from household table
wave_id			Indicate 3, 4,5 for population study 2, and 6,7,8 for population study 3

### Concepts table

Destination Field	Source Field	Logic	Comment
"concept_vocabulary"			Indicate concept vocabulary i.e. SNOMED, LOINC or INSPIRE
"concept_code"			Indicate concept code as it appears in SNOMED, LOINC, if absent indicate INSPIRE concept code
"concept_text"			Indicate corresponding concept text
"start_date"			SET to 23-Mar-2024
"end_date"			SET to 31-Dec-2099
"inspire_concept_id"			Continue from last

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

			inspire concept id
"concept_id"			Indicate concept id from Athena
"score"			SET TO NULL

## Instrument

Destination Field	Source Field	Logic	Comment
"instrument_id"			Autogenerate d from last instrument id
"name"	World Health Organisation Disability Assessment Schedule (WHODAS 2.0), World Health Organization Quality- of-Life Scale (WHOQOL-BREF), Oslo 3-items social support scale, List of Threatening Experiences (LTE), Wijma Delivery Expectation/Experien ce Questionnaire (W- DEQ), WHO (2005) multi country study questionnaire Traumatic Event Scale		Indicate name of instrument
"description"	Measures health and disability , Measures quality of life, Measures social support, Measures experience of stressful life events,		Indicate description of the instrument (i.e What it is used to measure)

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

	Measures fear of childbirth, Measure Domestic Violence, Measure Child birth stressor/ Traumatic birth		
"instrument_type_concept_id"			Indicate concept id from Athena, if unavailable, use INSPIRE concept id
"version"			Indicate version as it appears in Athena
"version_date"			Use version_date as it appears in Athena
"language_concept_id"			Indicate 45882691 For English

## Instrument Item

Destination Field	Source Field	Logic	Comment
instrument_item_id			Autogenerated from last instrument item id
instrument_id			FK from instrument table
name			<b>Name of instrument item, will be:</b> WHODAS 2.0 WHOQOL-BREF Oslo 3-item LTE

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

			W-DEQ WHO (2005) TES
description			<b>Description of what the instrument item measures, indicate:</b> World Health Organisation Disability Assessment Schedule (WHODAS 2.0) score for WHODAS, World Health Organization Quality-of-Life Scale (WHOQOL-BREF) total score FOR WHOQoL, Oslo 3-items social support scale total score for OSLO 3-item, healthrisk outcome (yes or no) for <b>LTE-health</b> deathloved outcome (yes or no) <b>LTE-death</b> , relationproblem outcome (yes or no) <b>for LTE-relation</b> , legalissue for <b>LTE-legal</b> , outcome (yes or no) for

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

			incomeinstability outcome(yes or no) for <b>LTE-income</b>  Fear of childbirth total score Psychological violence outcome(yes or no) Measure Child birth stressor/ Traumatic birth outcome
instrument_item_type_concept_id			Indicate concept id's from inspire
instrument_item_concept_vocabulary			Indicate INSPIRE
instrument_item_concept_vocabulary_id			SET TO NULL
alternative_instrument_item_concept_vocabulary			SET TO NULL
alternative_instrument_item_concept_vocabulary_id			SET TO NULL
result_not_null_answer_list_concept_vocabulary			SET TO NULL

## MAPPING FROM SOURCE DATA TO STAGING DATABASE

### Longitudinal Population Fact

Destination Field	Source Field	Logic	Comment
fact_id			Autogenerated from last fact_id
individual_id			FK from individual table
interview_id			FK from interview table
resident_episode_id			FK from resident_episode table
population_study_id			Indicate 2
instrument_id			FK from instrument table
instrument_item_id			FK from instrument_item table
concept_id			Fetch corresponding concept_id of the answers from concept table
value_type_concept_id			Indicate concept_id of the questionnaire items
value_as_char			Indicate actual answers from the questionnaire
value_as_num			Indicate scores of the answers
value_as_concept			Indicate INSPIRE concept id's
is_indv_level			SET TO NULL
